Exclusive Output

“Police Department should start a Hijra focused desk in each Thana and appoint a Hijra-Friendly Officer to deal the issues related to hijra community.

Bandhu could support us in preparing policy issues in this regard. The initiatives should be taken centrally from Police Department. However, it might take time, so I can assure you that I will establish a Hijra-Friendly desk in my jurisdiction and open a hijra-register”.

Mr. Faisal Mahmud
Deputy Police Commissioner, Sylhet (North)

Inspirational Speech

“As human beings, we try to see our reflection in others. Maybe God Himself does the same. But we make many walls between us.

We create majority and minority groups based on social, economic, religious, gender and sex status and thus create stories of deprivation to the minorities. USAID believes, if someone is kept behind, the true and sustainable socio-economic development is not possible”.
